2018 Bio-logic Hearing Diagnostic Systems AEP Course

Course Dates: March 12 – 14, 2018
 September 17 – 19, 2018

Course Location: Natus Medical Incorporated Training Facility at
 Audiology Systems Incorporated Schaumburg Office
 50 Commerce Drive, Suite 180
 Schaumburg, IL 60173 USA

Tuition: Waived for Nav Pro Customers

Course Description: The objective of this training is to provide audiologists with the information, resources and tools to effectively use the Bio-logic Navigator Pro for Auditory Evoked Potential (AEP) testing, including Auditory Brainstem Response (ABR), Auditory Steady State Evoked Response (ASSR), Auditory Middle and Late Evoked Response (AMLR, ALR), Electrocochleography (ECoChG), and Electroneuronography (ENoG).

At the end of the course, the participant will be able to:

- ✓ List recording, stimulus and amplifier parameters for threshold and neuro-diagnostic ABR; important considerations to achieve optimal ABR collections; tips for successful ECoChG assessment; the role of ASSR in the Pediatric AEP test battery; and how to troubleshoot common data collection problems
- ✓ Demonstrate the procedure for customizing AEP protocols to collect air and bone conduction click ABR, tone-burst ABR, ASSR, ECoChG, MLR, ALR and P300
- ✓ Describe the importance of modifying test protocols, customizing reports, normative data comparisons, and database management
- ✓ Explain how Electroneuronography (ENoG) can help the physician predict outcome and guide treatment plans for patients with facial nerve palsy
